

## Barron Farmers Union Will Call Procedure and Policies on LP and Fuels

Barron Farmers Union Co-op is committed to providing you the best and safest LP Gas service possible. We also strive to accommodate special circumstances when possible, however due to increasing fuel, insurance and other business costs, effective immediately we will no longer deliver just \$100 worth of LP gas. It is not fair to all our other patrons to have to subsidize the higher costs of smaller deliveries.

Our normal **minimum delivery on will-call orders remains at 200 gallons** into tanks designed to hold at least that much. If an extenuating circumstance exists that does not make it possible for you to take the minimum delivery, we will delivery less down to a minimum of **100 gallons** for an additional charge of .20 cents per gallon to help cover the higher costs of a small delivery. We will not make smaller deliveries on a routine basis. If this situation develops we will switch out our tank with a smaller one and use the larger one where it is needed and can be utilized more effectively.

By adhering to these policies we will be able to help keep operating costs down which will help us keep the price of LP as low as we can.

We require a two-day notice prior to your delivery day. If we have to deliver on the same day or on weekends we will be adding a service charge to your bill. If you have an emergency and are out of fuel on a weekend please call 715-790-2744 or 715-790-2742.

If you do not know what your delivery day is please give us a call we'd be glad to help you.
